

RESIDENTIAL & COMMERCIAL IRRIGATION
 Built on Innovation®

- 01 **Adaptable:** Runs on batteries or optional solar panel
- 02 **Reliable:** Easy Retrieve™ memory storage
- 03 **Versatile:** Indoor/outdoor models with 6 or 12 stations

XC HYBRID WITH SOLAR PANEL OPTION

Battery-Powered Controller Delivers the Power Without the Plug

The XC Hybrid Controller delivers extensive power without the plug. Built with many of the same efficient water management features as the XC Controller, the XC Hybrid operates DC latching solenoids with battery power or a plug-in 24VAC transformer. Ready for indoor or outdoor installation, the XC Hybrid is available in 6 and 12 station plastic or stainless steel models. That means it's the right solution for a wide range of residential and commercial applications. Small landscaped areas, parks, gardens, roadway medians, and roundabouts are ready for the XC Hybrid. With Easy Retrieve memory backup and on-board, non-volatile memory, you can easily recall all of the controller's watering programs at any time.

The XC Hybrid's optional Solar Panel Kit (SPXCH) eliminates the need for batteries and provides maintenance-free operation by harnessing the sun's energy. Once connected, this simple, highly efficient upgrade supplies 100% of the controller's power.

XC HYBRID FEATURES & SPECIFICATIONS

Features & Benefits

Easy Dial Programming

The same simple programming as other Hunter controllers.

Global Seasonal Adjustment (0% to 150%)

Simple on-screen adjustment modulates watering to accommodate changing weather conditions.

Three Independent Programs with Four Start Times Each

Enables a wide range of watering requirements.

Independent Day Scheduling

Choose days of the week, true odd/even, or interval watering.

Battery Operated

Plastic version uses 6 AA batteries. Stainless uses 6 C batteries. Both models can use an optional 24VAC plug-in transformer while still utilizing DC latching solenoids.

Rugged Cabinet Design

Ideal for both indoor and outdoor use, with models in 6 and 12 station configurations.

Non-Volatile Memory

Excellent insurance against unreliable power; retains current time, day and program data.

Easy Retrieve™ Memory

The ability to retrieve your preferred program, stored in backup memory.

Models

PLASTIC INDOOR/OUTDOOR (XCH-600, XCH-1200)

Height: 22 cm
Length: 17.5 cm
Depth: 9.5 cm

STAINLESS STEEL OUTDOOR (XCH-600-SS, XCH-1200-SS)

Height: 25 cm
Length: 18.7 cm
Depth: 11 cm

OPTIONAL SOLAR PANEL (SPXCH)

Height: 8.3 cm
Length: 7.6 cm
Depth: 1.6 cm

POLE FOR STAINLESS STEEL MODEL (XCHSPOLE)

Height: 1.2 cm

Stainless Steel Outdoor XC Hybrid w/ Solar Panel & Pole
