GENERAL INFORMATION

GENERAL INFORMATION

A. INTRODUCTION OF VIET GARDEN

VIET GARDEN has been remarkably established on the date of Vietnam officially joined the World Trade Organization – WTO and being a member of HUNTER INDUSTRIES – USA to exclusively distribute the most innovative irrigation equipments into Vietnam territory.

As one of the world's leading manufacturers of irrigation equipment for the landscape and golf course industries, Hunter has enjoyed a well-established reputation as the innovation leader in irrigation. We continue to focus on the needs of the irrigation professional, just as we have every day since being founded 30 years ago as a small 'start-up' by industry pioneer.

As the innovation leaders, Hunter holds more than 250 product patents and 40 trademarks. Since then, Hunter has developed more than 1,000 innovative products that meet the needs of professional installers worldwide.

From the beginning, Hunter's corporate strategy has been to focus predominantly on providing the highest levels of value and service to the professional. One result of this focus is a worldwide distributor network spanning about 100 countries that is uniquely qualified to serve contractors and ultimately, end-use consumers.

Hunter Industries has also introduced a line of sensors that gauge inclement weather and prevent sprinklers from running when conditions are not optimal. For example, an automatic sprinkler system with a Hunter sensor will shut off when it is raining, excessively windy or freezing.

Hunter produces a full range of water-efficient products for residential and commercial use including golf-course, stadium, park, restaurant, hotel and resort, industrial zone...

Following is outstanding distributors of HUNTER INDUSTRIES in Europe market (United Kingdom, Italy) and Asia market (China, India, Vietnam).

Greenman Machinery Company

Established in 1992, Greenman Machinery Company has experienced over 15 years of development and inspiration with a nationwide and professional sales force of approximately 500 staffs as a competitive edge. The company is a full-fledged distributor in China of diversified brand names as worldwide innovation leaders in landscape and golf-course industries. Greenman has enjoyed a significant fruitful benefits for years backwards from a sustainable and huge potential growth of China market.

Jain Irrigation Systems Ltd.

As an Indian professional leader in manufacturing of irrigation equipments, Jain Irrigation has been voted as the second in a recent global ranking proven by a fully worked-out dribble irrigation system that revolutionized the industry. Jain Irrigation has been named as one of the eight Indian companies expected to emerge as challengers to the World's leading companies by Standard and Poor recently in May 2007. Additionally, the company owns a sprawling 2,000 acre Hi-Tech Agri Institute nurtured by largest pool of Agricultural Scientists, Engineers & Technicians in Private Sector.

Evenproducts Limited

Founded in 1953 Evenproducts has developed into the largest privately owned UK irrigation company through acquisition and organic growth. The flexibility of the organisation is demonstrated by the diversity of markets served with sales in the horticultural, sports turf and residential irrigation markets. In 1998 Evenproducts Limited purchased Sportsground Irrigation who were the Hunter Industries agents for the United Kingdom and Ireland. This purchase enabled Evenproducts to offer an unequalled range of irrigation equipment for installers within the landscape and sports turf industries. 2003 Evenproducts joined forces with Logic Irrigation Limited to expand further the product range of both companies within the sportsturf, landscape and horticultural industries.

Viet Garden

Viet Garden has been established on 10th January 2007 pursuing Business License No. 0304787999 as a 100% domestic owned enterprise.

On 01 July 2008, Viet Garden has been granted an authority to exclusive distribute irrigation equipments into Vietnam territory by Hunter Industries – a well-established reputation America Irrigation Innovator. Hunter's growth and leadership positions in product diversification, innovation and overall customer satisfaction come from listening to the customer above all else - and then responding by providing a full range of relevant, value-added products and services.

In addition to nationwide distribution network, knowledgeable management, empowered and involved workforce are also the predominant and decisive factors for Viet Garden to be solidly positioned as a formal solely distributor of Hunter Industries in Vietnam.
